Company Brief

Reformed in 2014 by founding Principal, Mark Massey, Massey Construction Group, Inc. (MCGi) is a privately held construction firm headquartered in Central Florida with a focus on, experience with, and education in Florida Construction. Owned, operated, and managed locally we're dedicated to providing knowledgeable construction services and consulting to our clients. In 2014 Mr. Massey also partnered with fellow alumni and classmate Spiro Telegadis to expand the reaches and offerings within his corporations. While there has been a change to the name and addition to managing staff the founding principles of this organization and reputation built persists still.

As a multi-disciplined licensed contractor and knowledgeable consulting firm MCGi provides its clientele with the wide array of construction services. We hold professional licenses for Roofing, Sitework and Underground Utility, and as a General Contractor. As such we can be your qualifying agent for many permitting needs. Pre-construction, owner's representation, and construction management experience in mid to large scale residential, new and restorative healthcare, retail, restaurant, and light industrial construction our diverse portfolio of building stands as a testament to the abilities for MCGi to be an advocate and asset for any capital improvements or a master planning need.

Principles Professional Summary

Mark B Massey

Mark was born and raised in Florida and has a Bachelor of Science degree from the College of Architecture School of Building Construction from the University of Florida. He has a diverse breadth of experience in various forms of construction from single family residential, to light commercial industrial and has performed both field and managerial rolls. This experience is what makes Mark a continued asset to any construction project. In 1999 he branched off on his own and formed what is now Massey Construction Group Inc.

Accomplished Construction Management Professional with demonstrated success in the areas of project management, estimating and insurance claims repair. Proven ability overseeing all aspects of the construction process including scheduling, procurement, estimating, site supervision, and budget control. Results-oriented and the ability to coordinate multiple projects and teams simultaneously coupled with the skill to effectively manage staff of all levels and diverse backgrounds.

Spiro M Telegadis

Spiro is also a Florida native and too has a Bachelor of Science degree from College of Architecture School of Building Construction from the University of Florida. Meeting Mark in college they quickly became friends and collaborative partners on many school projects. After College their friendship and collaboration continued to culminate to the organization which is now Massey Construction Group Inc (MCGi).

Spiro holds an extensive knowledge of physical and virtual systems with experience in production and coordination of time and budget sensitive projects. Additional personal assets include a combined expertise in planning with strong technical knowledge to establish communities, infrastructure, and services responsive to long-range objectives for sustainable growth, efficient maintenance, effective functionality, and continued performance.
